## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 2, 3, 5, 8, 9, 15, 20, 22, 23, and 29 are rejected under 35 U.S.C. 102(b) as being anticipated by Gabbert, U. S. Patent 6,073,378.

3. Gabbert teaches a sign cover adapted to attached to a cage comprising a transparent card holder 16, a retention member 19 adapted to retain the card holder 16 to the cage and a adapter member 19 designed and dimension to be coupled with the card holder such that the holder may be selective positioned in a first or second orientation.

4.

The left tie (adapter) corresponds to the adapter member and the right tie corresponds to the retention member. The card can be oriented at a position at 90 degrees to the first position seen in figure 13. The examiner will consider favorably claiming the adapter allows the card holder to selectively rotatable from a first position to a second position 90 degrees with respect to the first position.

***Allowable Subject Matter***

5. Claims 4, 6, 7, 11, 12-14, 16, 18, 19, 21, 24, and 28 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
